EXPERIENCE

General Assembly, Washington, DC
Web Development Immersive Student

June 2018 - September 2018

-Built a simple yet effective Basketball Quiz Game using HTML, CSS, and vanilla Javascript. The game would iterate through questions and then alert the user how many they had gotten right or wrong at the end

- Built The Fantasy Basketball Team Maker using Node.js, Express.js, MongoDB, and Handlebars for rendering views. Allowed users to sign up or log in and add players to their team by searching through the database.

- Led a team of developers in the production of an endangered species tracking app using React.js and Express.js called Danger Zone. Wireframed the UI and built out the form components. Implemented RESTful routing with GET, POST, PUT, and DELETE requests.

Starbucks, Bethesda, MD
Barista

August 2014 - October 2016

- Promoted coffee consumption by educating customers.
- Selling coffee and coffee grinding and brewing equipment, accessories, and supplies;
- Connecting with patrons regularly, and ensuring that they have the best possible experience.

Starbucks, Bethesda, MD
Supervisor

October 2016 - June 2018

- Managed and delegated a whole team throughout and 8 hour day.
- Responsible for hitting sales goals daily, and keeping up customer connection throughout.

SKILLS
